ACKNOWLEDGEMENTS

Ramsay Traquair and His Successors is the third volume in a series of published guides to the contents of the Canadian Architecture Collection (CAC) of the Blackader-Lauterman Library of Architecture and Art of McGill University.¹ While the earlier guides, *Percy Erskine Nobbs and his Associates* and *Edward & W.S. Maxwell*, presented inventories of the professional practice of the respective architects, *Ramsay Traquair* documents an effort, by a prominent architectural historian and his students, to record the French Canadian architectural tradition through measured drawings and photographs of Quebec buildings, furniture and artifacts. The Traquair Archive also includes the work of Emeritus Professor John Bland, Traquair's successor as Director of the McGill School of Architecture, and a fellow scholar of the history of Canadian architecture. It is to Professor Bland that we owe the privilege of becoming custodians to the Canadian Architecture Collection archives. With its present holdings of approximately 50,000 drawings and 20,000 photographs the Collection has become one of the primary resource centres for the study of Canadian architecture.

As was the case with the earlier guides to the CAC archives, *Ramsay Traquair* is a result of the collaboration of a group of librarians, architects and architectural historians, all of whom have contributed in a major way to the success of the project. In particular, I want to thank librarians Michelle Gauthier and Wolfgang Noethlichs for their dedication to the project and for the grace and competence with which they met the heavy demands in the final stages of our work. To architectural historian Susan Wagg, I once again acknowledge my appreciation for her editorial contribution and the scholarly insight she has so generously provided throughout the compilation of this and the two preceding inventories. Also to be thanked for their professional contribution and their dedication to the project are architect Baila Lazarus and librarian JoAnne Turnbull, both of whom have helped considerably in the project before the deadline. Computer programmer Bryan Haley made this new publication possible by designing and modifying the existing data bases, while the indefatigable technical assistants, Sonia Martin, Gordon Buchan, Kavitha Setlur, Shari Katz, Nassrin Farzaneh, Josephine Lewi and Jacques Gava have been responsible for the particularly arduous task of inputting 10,000 photographic records that are part of the Traquair collection. All of them have put their best abilities in the service of the project and have demonstrated a true commitment at often difficult times.

As part of the guide to the Traquair archive, we are fortunate to include two academic contributions from outside of McGill. The extensive bibliography has been compiled by Janet Sader, an M.A. candidate in Canadian Art History at Concordia University, who has chosen Traquair as the subject of her thesis. I am grateful to her for bringing to our attention a number of important sources unknown to us and for

contributing so much of her time and energy to provide us with a wealth of information not only on Traquair, but also on the contemporary context of his research. Professor Robert Derome from the Université du Québec à Montreal has contributed an important essay on Traquair's writings on Quebec silver as well as uncovering new research material in our own archives. He is also to be thanked for the enthusiasm with which he turned the requested two-page introduction into a twenty page scholarly essay.

The funding for the Traquair project has been provided in part by an SSHRC grant 491-85-1066 applied for during my sabbatical year by the acting Blackader Librarian, Mrs. Carol Marley. I am grateful to her for her help and to the Social Sciences and Humanities Research Council of Canada for awarding us this second major grant towards the publication of the CAC archives. The grant money was most generously supplemented by McGill University, which awarded us two additional allocations in 1986-87 to ensure the completion of the Traquair inventory. In addition, the McGill School of Architecture has given us a much appreciated contribution to help us bridge the government and university funds. It must be said that the School and the University helped us start the description process of the CAC archives five years ago, and we have been privileged to receive their consistent support ever since.

The Traquair guide is the last major publication in the CAC inventory project. A finding aid for the remaining small collections will be published as a supplement in June 1987. A part-time curator will be appointed shortly, and our life will perhaps be calmer. I am grateful to all who have participated over the last five years in this project, which has been of great magnitude and is of even greater importance. My collaborators have done a splendid job.

It is my hope that our work will matter to students and scholars of Canadian architectural history as much as it mattered to us. The door to the Canadian Architecture Collection is now permanently open.

REMERCIEMENTS

Ramsay Traquair et ses successeurs est le troisième volume d'une série de guides de la Collection d'architecture canadienne (CAC) de la bibliothèque Blackader-Lauterman d'architecture et d'art de l'université McGill.¹ Si les précédents guides, *Percy Erskine Nobbs et ses associés* et *Edward & W.S. Maxwell*, présentaient un inventaire des réalisations professionnelles de leurs architectes respectifs, *Ramsay Traquair* fait état des efforts d'un grand historien d'architecture et de ses élèves pour rendre compte de la tradition architecturale du Canada français au moyen de relevés et de photos d'édifices, de meubles et d'artéfacts du Québec. Le fonds Traquair comprend également les travaux du professeur émérite John Bland, successeur de Traquair à la direction de l'École d'architecture de McGill et lui-même spécialiste d'histoire de l'architecture canadienne. C'est au professeur Bland que nous devons le privilège d'avoir obtenu les archives de la Collection d'architecture canadienne. Avec ses quelque 50 000 dessins et 20 000 photos, la collection est devenue l'un des principaux centres de ressources pour l'étude de l'architecture canadienne.

Comme c'était le cas pour les guides précédents de la CAC, *Ramsay Traquair* résulte de la collaboration d'un groupe de bibliothécaires, d'architectes et d'historiens de l'architecture, qui tous ont contribué de façon essentielle à la réalisation du projet. Je tiens à remercier tout particulièrement les bibliothécaires Michelle Gauthier et Wolfgang Noethlichs pour leur dévouement au projet, ainsi que pour la grâce et la compétence avec lesquelles ils ont su se plier aux exigences énormes qui leur ont été imposées au cours des dernières étapes de notre travail. À l'historienne d'architecture Susan Wagg, je réitère ma reconnaissance pour sa contribution éditoriale et les conseils érudits qu'elle a si généreusement prodigués tout au long de la compilation de cet inventaire et des deux inventaires précédents. Je tiens également à remercier de leur contribution professionnelle et de leur dévouement au projet l'architecte Baila Lazarus et la bibliothécaire JoAnne Turnbull qui ont beaucoup travaillé au projet avant son échéance. Le programmeur Bryan Haley a rendu cette publication possible en concevant et en modifiant les bases de données existantes, tandis que ses assistants infatigables, Sonia Martin, Gordon Buchan, Kavitha Setlur, Shari Katz, Nassrin Farzaneh, Josephine Lewi et Jacques Gava se sont chargés de la tâche particulièrement ardue d'introduire les 10 000 dossiers photographiques qui font partie de la collection Traquair. Toutes ces personnes ont contribué le meilleur de leurs compétences à ce projet et ont fait preuve d'un réel dévouement dans les moments difficiles.

Nous avons le plaisir d'inclure dans le guide du fonds Traquair deux contributions académiques provenant de l'extérieur de McGill. La bibliographie très détaillée a été compilée par Janet Sader, candidate à la maîtrise en Histoire de l'art canadien à l'université Concordia, qui a choisi M. Traquair comme sujet de son mémoire. Nous lui sommes reconnaissants

d'avoir porté à notre attention bon nombre de sources importantes que nous ne connaissions pas et d'avoir consenti tant de temps et d'énergie pour nous communiquer une mine de renseignements non seulement sur M. Traquair mais sur le contexte contemporain de sa recherche. Le professeur Robert Derome de l'Université du Québec à Montréal a pour sa part rédigé un essai important sur les écrits de Traquair sur l'argenterie québécoise et a découvert du nouveau matériel de recherche dans nos propres archives. Nous le remercions également de l'enthousiasme avec lequel il a transformé l'introduction de deux pages que nous lui avions commandée en un essai d'une grande érudition et d'une vingtaine de pages.

Le financement du projet Traquair provient en partie d'une bourse du CRSHC, numéro 491-85-1066 demandée au cours de mon année sabbatique par la bibliothécaire suppléante du Blackader, Mme Carol Marley. Je lui suis reconnaissante de son aide et je remercie le Conseil de recherches en sciences humaines du Canada de nous avoir accordé cette deuxième bourse en vue de la publication des archives de la CAC. L'université McGill a généreusement ajouté aux sommes de cette bourse en nous accordant deux allocations supplémentaires en 1986-1987 pour assurer la venue à terme de l'inventaire Traquair. En outre, l'École d'architecture et l'université nous ont aidés à entreprendre la description des archives de la CAC il y a cinq ans et leur appui ne nous a jamais fait défaut depuis.

Le guide Traquair sera la dernière publication importante du projet d'inventaire de la CAC. Un guide de repérage des autres petites collections sera publié sous forme de supplément en juin 1987. Nous nommerons bientôt un conservateur à temps partiel et nos vies retrouveront peut-être alors un certain calme. Je tiens à remercier toutes les personnes qui ont participé à ce projet au cours des cinq dernières années, projet qui a eu une très grande envergure et une importance encore plus grande. Mes collaborateurs ont fait un travail exceptionnel.

J'espère que notre travail aura autant de valeur aux yeux des étudiants et des spécialistes de l'histoire architecturale canadienne qu'il en a eu pour nous. La porte de la Collection d'architecture canadienne est maintenant ouverte en permanence.

PREFACE

Ramsay Traquair and his Successors, the third volume in our series of guides to the Canadian Architecture Collection at McGill University Library, makes a truly remarkable repository of architectural drawings and historical photographs available at last to scholars and researchers. The Traquair Archive has a particular and personal significance for McGill University, since Ramsay Traquair taught and trained students at this University for some twenty-five years. He succeeded the distinguished Percy Erskine Nobbs as Macdonald Professor of Architecture in 1913, and it is fitting that the guide to his archive should follow so closely upon his predecessor's, which appeared in 1986 as *Percy Erskine Nobbs and his Associates: A Guide to the Archive*.

The Traquair Collection is of crucial importance to the architectural history of Quebec and of Montreal; the Traquair Collection constitutes the nucleus of the distinguished Canadian Architecture Collection and so, the present guide forms a fitting culmination for the series.

It is a distinct pleasure to pay tribute here as well to Professor John Bland himself a student of both Percy Nobbs and Ramsay Traquair, and their distinguished successor. As Macdonald Professor of Architecture, Professor Bland has continued and deepened for generations of students and scholars that living sense of tradition prized by Ramsay Traquair and beautifully embodied in the older architecture of Quebec. The Traquair Archive and the present guide bear witness to Professor Bland's magnificent accomplishments in this regard.

It is also a pleasure to thank Mrs. Irena Murray, General Editor of the series of guides and Head, Blackader-Lauterman Library of Architecture and Art, for her expert direction and unflagging enthusiasm. Mrs. Murray and her skilled and devoted team of colleagues are to be congratulated on a superb work of scholarship.

Dr. Eric Ormsby
Director of Libraries

PRÉFACE

Ramsay Traquair et ses successeurs, le troisième volume de la série des guides de la Collection d'architecture canadienne de la bibliothèque de l'université McGill, met enfin à la disposition des spécialistes et des chercheurs un ensemble exceptionnel de dessins d'architecture et de photos historiques. Le Ramsay Traquair a été l'un de nos professeurs pour une période de quelque vingt-cinq ans. Il a succédé au distingué Percy Erskine Nobbs à la chaire Macdonald d'architecture en 1913 et il convient que le guide portant son nom suive de si près celui de son prédécesseur paru en 1986 sous le titre *Percy Erskine Nobbs et ses associés: guide du fonds*.

La Collection Traquair est d'une importance cruciale pour l'histoire architecturale du Québec et de Montréal; elle est le noyau même de la Collection d'architecture canadienne et il est donc normal que le présent guide soit le point culminant de la série.

Nous nous faisons en outre un plaisir de rendre hommage ici au professeur John Bland, lui-même étudiant de Percy Nobbs et de Ramsay Traquair, et devenu leur successeur distingué. En tant que titulaire de la chaire Macdonald d'architecture, le professeur Bland a maintenu et approfondi pour des générations d'étudiants et de spécialistes le sens de la tradition que prisait Ramsay Traquair et que l'architecture ancienne du Québec incarne si magnifiquement. Le fonds Traquair et le présent guide témoignent éloquemment des réalisations exceptionnelles du professeur Bland à cet égard.

Nous remercions également Mme Irena Murray, directrice de la série de guides et bibliothécaire-en-chef de la bibliothèque Blackader-Lauterman d'architecture et d'art, pour son enthousiasme indéfectible et la qualité exceptionnelle de son travail. Mme Murray et ses collègues compétents et dévoués méritent toutes nos félicitations pour leur impressionnant travail d'érudition.

Drawings by Morris and Watt (1921) probably also done under auspices of P.Q.A.A. Redrawn by G.M. Fisk 1935. Luc Noppen et al. in his 1978 book *La maison Maizerets - Le Château Bellevue: deux exemples de la diffusion de l'architecture du Séminaire de Québec aux XVIII^e et XIX^e siècles*, analyses these two buildings and investigates the manner in which the

Séminaire used them as prototypes in rural areas where the buildings would act as models for lesser structures.(J.S.)

INVENTORY: PHOTOGRAPHS

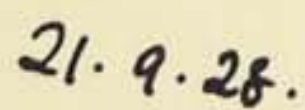

This inventory consists of over 8,000 individual photographs of:

- A) Canadian buildings, views, and objects (arranged alphabetically by location and date);
- B) Quebec silver (arranged alphabetically by location, by object, and by date; photos without a location are filed in the beginning of the Quebec silver inventory under the heading 'Quebec, Province of').

In addition to the photographs in this inventory, the CAC has a cabinet containing 1203 glass slides. For the most part, they deal with Canadian architecture and planning as well as general ornamentation and decoration and were produced for Traquair's and Nobbs' courses in the school of architecture.

PHOTOGRAPHIC REPRODUCTION

The University of Chicago Press is pleased to announce the publication of a new series of photographic reproductions of the original manuscripts of the works of the great English writers of the sixteenth and seventeenth centuries. The series is being published in a number of volumes, each containing a selection of the most important works of a particular writer. The reproductions are of the highest quality, and are intended to provide a more complete understanding of the original manuscripts than is possible from the printed text alone. RAMSAY TRAQUAIR: PROFESSIONAL AND PERSONAL PAPERS

The Traquair papers in the Canadian Architecture Collection constitute only a portion of his personal records. Researchers must be aware of the fact that the McGill University Archives also possesses 2 boxes of personal materials registered under Traquair (M.G. 3089 c.1, c.2). These are mainly lecture notes, sundry notes, manuscripts, correspondence and sketches. There are also administrative papers registered under the "Archives of the Faculty of Engineering" (R.G. 35). However, the papers listed here do have considerable interest. Also included with this original material is all the related information gathered over the years by Professeur John Bland, dealing with different aspects of Québec architecture

In order to arrange these fragmentary records, an alphabetical system was devised based on their function. The twelve categories into which the papers were sorted are:

Series A. Notes of Traquair for architecture curriculum courses(1901-1933) 27 file folders: notes, sketches, clippings, and photographs.

Series B. Personal items of Traquair(1889-1938) 1 file folder: correspondence, notes, clippings, sketches, and a scrapbook: photographs, postcards, and collages.

Series C. Signed notes of Gordon Antoine Neilson(1929-1933) 8 file folders: notes, booklets, and correspondence.

Series D. Signed notes of Marius Barbeau(1925-1944) 10 file folders: notes, booklets, correspondence, and clippings.

Series E. Boy Scouts' flag design and correspondence(1931-1946) 8 file folders: photographs, sketches, correspondence, badges, notes, pamphlets, and booklets.

Series F. Drawer list of drawings of French Canadian Architecture as arranged by Traquair(n.d.) 1 file folder: 8 page booklet.

Series G. Source clippings/publications 36 file folders

Series H. Student sketchbooks(1927-1933) 15 items

Series I. Historic notes on individual places(1827-1941) 80 file folders: clippings, postcards, notes, pamphlets, sketches, correspondence, leaflets, plans, reports, booklets and specifications.

Series J. Publications of Ramsay Traquair(1906-1939) 16 file folders: 35 items.

Series K. Publications by other working in the field or allied fields(1909-1947) 25 file folder: 45 items

Series L. Photocopies of all articles in the "P" section of the Ramsay Traquair bibliography compiled by Janet Sader (1987) (1906-1949) 31 file folders

Series M. Preliminary index to Ramsay Traquair's drawings by Eva Doelle arranged topographically within the chronological arrangement: 500 index cards.

Series N. Line blocks (for R. Traquair's book on Québec Architecture?)

APPENDIX 3

PLACE AUTHORITY LIST

FILING ARRANGEMENT:

Since the following place authority list is entirely computer-generated using Dbase III, the filing system is as follows:

- 1) A space files before any other character or symbol. Therefore a non-hyphenated town / village or streetname files before a hyphenated one.

i.e.

Saint Zephyrin files before Saint-Aimé

- 2) Letters separated by an apostrophe file before those that are linked directly together.

i.e.

L'Assomption files before Lacolle

EXPLANATORY NOTES

Those locations that are printed in **bold** are the authoritative place names used under which to locate projects in this inventory.

City For cities outside Canada
see

Country,[State], City

within Québec the abbreviated form St or Ste is used.

City For cities within Canada but outside the Province of Quebec
see

Province, City

see = guides to the authoritative placename.

see also = guides to a place under which related material can be found.

Saint/Sainte/St/Ste

- a) For cities and villages within Québec the full form Saint or Sainte is used.

- b) For streetnames and city districts

X = designates placenames that are found on the photographs or drawings, but which are not used as authoritative placenames.
